To Whom It May Concern:

Joy Bridges at Harmony Accounting is a "joy" to hire. She went above and beyond her assignment for my company. We had not done adequate accounting in over two years and she was able to reconcile all four of our accounts for us. In addition, she input data into our software at no charge and helped teach me how to use it. I am very happy with the job she did and would highly recommend her to anyone looking for accounting help.
